

Mum's Clare

A Mother's Eye View of Indonesia

This true story is the personal adventure of an ordinary person spending time in mysterious places with truly remarkable people. My 20-year-old daughter Clare invited me to join her in Indonesia, the country she had grown to love during her gap year. Neither of us knew that July 1997 would be the beginning of Indonesia's financial crisis and that future events would make a similar visit difficult.
